

Environmental Policy

Verdant Leisure is committed to promoting sustainable tourism and protecting and enhancing our natural environment. Wherever possible, we will consider the environment and aim to reduce the impact we have on our surroundings.

This policy applies to all activities carried out by Verdant Leisure and impacts upon our staff, customers and key suppliers.

We will do what we can to minimise the environmental impact of our business. Our team will take the following steps to reduce waste, prevent pollution and conserve water and energy;

- Minimise the generation of waste, resource consumption and prevent pollution wherever possible.
- Improve resource efficiency including reducing our use of water, energy and raw materials through regular monitoring.
- Comply with all relevant legislation and regulations.
- Regularly review our activities and the impact they have on the environment.
- Work on a programme to improve our environmental performance.

We have introduced a Green Team and have Green Champions on every park who help us achieve our goals. We are proud to be members of the Green Tourism Business Scheme.

Our Environmental Policy is made available to all employees, suppliers and customers.

Graham Hodgson, Chief Executive
